- Chasing the Rare & Unusual in Shade Gardens

TESTIMONIALS

“Gene Bush is an unusually gifted plantsman specializing in SHADE perennials both common and uncommon. His depth of knowledge would remind you of a college professor with tenure combined with the ability to communicate to the common man. Gene Bush, owner of Shade Garden Expert is a very special person in the world of gardening”.

Albert Hendley, Mission Oaks Gardens, Zanesville, Ohio

“Gene has always been on the top of our list of potential speakers for our monthly Master Gardener meetings as well as other educational programs that we hold. His presentations are fresh, lively and informative. We are lucky to have such a knowledgeable and entertaining presenter in our community”. *Colleen Craven-Becker, Horticulture Program Assistant Purdue University Cooperative Extension Service Floyd County*

“Gene Bush has been an extremely popular speaker here in Indianapolis. His lecture on Plant Combinations for the Shady Garden for the Indianapolis Museum’s Horticultural Society was a complete sell-out, with requests for more talks. He enjoys an extremely fine reputation as a plantsman, writer, and speaker. As coordinator for the museum’s many horticultural lectures and symposia, I look forward to having him back soon to grace our stage.” *Mark Zelonis, The Ruth Lilly Deputy Director of Environmental & Historic Preservation, Indianapolis Museum of Art*
